

APPSolve: Secure Transfer

Since 2001, APPSolve (part of the Oracle Partner Network) has been one of the leading companies providing quality consulting and the best practice solutions to the South African Oracle applications market.

APPSolve has recently expanded their range of services by introducing APPSolve Secure Transfer to provide their clients a secure solution to transfer files between end-user PC's and Oracle E-Business Suite servers.

APPSolve: Secure Transfer

Securing your information hassle free

If you are running, or planning to run, Oracle E-Business Suite and are concerned about the possible security risk of files being transferred between end-user PC's and Oracle E-Business Suite servers, look no further.

APPSolve's experienced DBA's and Developers have developed Secure Transfer to provide a secure solution, managed from within the application, for files being transferred between PC's and servers. In a world where information is a valuable commodity, protecting and managing this is of the utmost importance.

APPSolve Secure Transfer supersedes typical FTP transfer applications as it is more secure, easily managed and provides traceability. With Secure Transfer you can easily obtain reports to indicate exactly who performed a certain transfer action and the point in time this was done. APPSolve Secure Transfer presents an intuitive user interface which facilitates ease of use and mitigates the risks of both accidental and fraudulent exposure of confidential information.

Uses

Secure Transfer is used for the uploading and downloading of files to and from end-user PC's to Oracle E-Business Suite servers.

1. Uploading:
 - Price lists
 - Bank statements
 - Open interface data files
2. Downloading:
 - Payroll ACB files
 - EFT bank files

Advantages

When choosing Secure Transfer, you are guaranteed of the following:

- Controlled server access – no server usernames or passwords need to be shared.
- Access is controlled by the Oracle E-Business Suite username or responsibility.
- All file transfers are logged for auditing and reporting purposes.
- Seamless integration into Oracle E-Business Suite R11i or R12.
- Quick and easy installation and configuration.

Secure your files with the best!

APPSolve's unique business model has shown to work extremely well resulting in APPSolve building and maintaining a very strong and satisfied client base. Providing the niche services that APPSolve focus on, it's not difficult to see why APPSolve is one of the preferred suppliers in the Oracle market today.

APPSolve prides itself on understanding a client's business and ensuring that the client get the most out of their Oracle Investment.
